

OVATION FOR COOK

Brooklyn Greets Arctic Explorer in Grand Style.

WIFE MEETS HIM ON TUG.

Parade of Automobiles Passes Under Triumphant Arch Erected Opposite His Old Home—President of Borough Officially Welcomes Him Home. Crowds Greet Commander Peary at Sydney.

New York, Sept. 21.—"It's good to be an American; it seems that I have been gone ten years." Gazing at New York after an absence since July 4, 1907, these words were the first sentiments expressed by Dr. Frederick A. Cook of Brooklyn as he returned to his native land on the steamship Oscar II. There was no hitch in the home-coming reception for the explorer.

The Oscar II. reached Quarantine at 8:30 this morning. There Mrs. Cook, accompanied by her two children, Dr. Cook's brother, William, Dr. Roswell O. Stebbins and J. Knowles Hare of the executive committee of the Arctic Club of America, were waiting on a tug. Dr. Stebbins and Mr. Hare boarded the liner. After they had greeted Dr. Cook, he joined his wife on the tug and was transferred from there to the steamboat Grand Republic, which carried a party of friends and enthusiasts down the bay to meet him. The Grand Republic took him to the Brooklyn water front, whence he made his entry into the city by automobile.

Music, cheering and a display of colors greeted Dr. Cook when he set foot in Brooklyn. A triumphal arch had been erected opposite his old home, under which the parade of automobiles, with the explorer in the foremost, passed en route to the Bushwick club.

More than a thousand persons were on the Grand Republic, but the borough of Manhattan was not officially represented. Bird S. Coier, president of the borough of Brooklyn, officially welcomed him there. The greatest reception, however, was held in Dr. Cook's home section of Brooklyn, at the Bushwick club, at noon.

PEARY LANDS AT SYDNEY

Commander Arrives for Festivities Planned in His Honor.

Sydney, N. S., Sept. 21.—Commander Robert E. Peary made his entry into Sydney this morning. Mrs. Peary, her daughter, Marie, and little Robert E. Peary were with the commander, the Peary family having met him at sea on the steam yacht Sheelah.

News that Commander Peary was nearing home caused a general cessation of business in the town. Large crowds swarmed into the streets and to the water front to welcome the explorer. All manner of water craft from yachts to sail boats, sporting their colors, moved down the bay when three blasts of the whistle were heard, which was the signal that the Roosevelt was approaching.

The tug C. M. Winch, gaily decorated with flags, conveyed the official welcoming party down the bay at an early hour. This party included the mayor of Sydney, Wallace Richardson, the heads of the city departments and other prominent persons.

HURRICANE SWEEPS GULF COAST

Four Lives Lost at New Orleans and Untold Damage to Property.

New Orleans, Sept. 21.—After attaining a velocity of sixty miles an hour at New Orleans, the West Indian hurricane, which struck the Louisiana and Mississippi gulf coast, has been reduced in its intensity. It left in its wake four dead at New Orleans and perhaps others along the gulf coast.

The property loss in New Orleans will exceed \$100,000 and many houses were unroofed and frail buildings partially destroyed. With all wires down, it is impossible to ascertain the loss of life or property along the gulf coast. The trains on the Louisville and Nashville railroad, which have been detained some twenty miles east of New Orleans, have not been fully repaired and it is impossible to say when a resumption of traffic will begin.

List of dead at New Orleans: Victor Jujol, killed by live wire; James Garretson, killed by live wire; Charles Schultz, killed by falling smokestack; John Arends, killed by live telephone wire.

The ferry steamer Assumption sank at the head of Napoleon avenue, but so lives were lost. Considerable property damage was done along the river front.

The storm apparently moved inland to southwestern Louisiana. The velocity of the wind at New Orleans was the highest in the history of the local weather bureau.

Mobile is thoroughly alarmed over the threatening conditions caused by the storm. The waters of Mobile bay are now backed up beyond Water street, more than two blocks from the river front, and are still rising.

Balloon Lands in Wisconsin.

St. Louis, Sept. 21.—A telegram received here from Benton, Wis., states that the balloon University City landed there safely at noon. Benton, Wis., is 300 miles on an air line from St. Louis, more than 171 miles less than the distance required to win the Lahm cup.

HOME IS BADLY MANAGED

Board Investigates Charges Against Commandant Barnes.

Lincoln, Sept. 20.—The board of public lands and buildings, which investigated the charges against Commandant Eli Barnes of the soldiers' home at Grand Island, preferred by Adjutant Joseph McGraw, has not yet made its formal report, but has practically agreed that the report will be to the effect that the home is not being conducted as it should be and that there is a lack of harmony among the employees and consequently disension among the members. Insofar as the charges of graft is concerned, the board will report these charges were not sustained.

The report will show that the members in the hospitals are not receiving the kind of food they should receive and that the farmer has not done as well as he should have done.

It was brought out in the evidence that several fist fights had occurred between employees and the management had permitted the home to run down and it was in a deplorable condition.

While members of the board are of the opinion that it would be to the best interests of the state if both Commandant Barnes and Adjutant McGraw, as well as the surgeon, Dr. Swigert, were discharged, they will doubtless make no such recommendation, but will simply report that under the present management the home is not being conducted as it should be.

The fact that Commandant Barnes has set aside the rules adopted by the board and installed a new set of rules came as a surprise to the board, though the governor stood by the commander, inasmuch as he said he had not signed the rules of the board. The rules of the board have been in force for some years, it being the opinion of the members that they stand until changed. Such also was the opinion of the attorney general and the supreme court as evidenced by the quotations from the rules in a recent case regarding the pension money of the soldiers.

Governor Shallenberger has adjutant McGraw's resignation from his place in the soldiers' home, to take effect Oct. 1. It is said that Mr. McGraw admitted to the governor that it was useless for the two to try to co-operate. Governor Shallenberger did not indicate when the next adjutant would be.

FIRST VIOLENCE IN CAR STRIKE

Interurban Car Wrecked and Two Non-union Motormen Assaulted.

Omaha, Sept. 20.—The first show of violence in the street car strike came at Council Bluffs, when a car on the interurban line was derailed and the windows smashed. Conductor Doolittle showed a disposition to resist and was hit in the face with a brickbat, sustaining painful, but not serious, injury. Five strikers were arrested, charged with riotous conduct. Fifty-four men were brought to the city from Chicago and it is understood that 400 more are expected to arrive this afternoon.

Two nonunion motormen were caught by strike sympathizers and subjected to rough treatment and five arrests resulted.

At 2 p. m. 350 strikers paraded through the principal streets of the city. It was claimed by the union leaders that 200 other men are out, but failed to show up at headquarters in time for parade. The marchers were liberally applauded by thousands of spectators who lined the streets.

Of the fifty-four men brought in from Chicago a few were put to work. After the rioting at Council Bluffs all cars in that city were taken off and in this city service was discontinued at 7 o'clock, as was done Saturday night.

OBJECTION TO TWO JOBS

Auditor Insists Gaylord Must Quit One or the Other.

Lincoln, Neb., Sept. 18.—C. P. Gaylord, elected supreme secretary of the American Order of Protection, cannot serve in that capacity unless he resigns as the head of the Order company, which has a contract to do the field work for the first named company.

This is the statement of State Auditor Barton, who supplemented it by remarking that if there was any law by which he could force Mr. Gaylord to resign one of the offices to which he has been elected he will call it to his aid. He was in consultation with the legal department of the state and he has instructed the former secretary, O. C. Bell, not to turn the records of his office over to the new secretary. In this way he expects to get the matter into the courts and get a ruling as to the legality of the proposition of one person serving in the two capacities.

Stock Show at Nebraska City.

Nebraska City, Neb., Sept. 20.—The Otoe County Stock Breeders' association's fourth annual stock show of pure bred live stock is to be held for four days at the Union Stock Yards here, beginning tomorrow. The Union Stock Yards are of ample size and the finest in the world. The program opens with a farm products parade.

HEMINGFORD HERALD.

Sunday school and preaching every Sunday at 10 o'clock, at the home of Mr. Shoffner. Everybody invited. You will find a gate on east and west sides of the place.

Montana Next Week

Fine Attraction at the Phelan Opera House for Fair Dates

Realizing that on nights during days of the fair next week that many people visiting Alliance would want to see a good show, and one based upon western life, the Opera House management after considerable effort succeeded in securing the well-known drama, "Montana," with a large and excellent company to play it. Special scenery and effects will be used, and the play will be put on in the same faithful manner that it is being played at all of the metropolitan theatres. There will be many attractions during the fair that people can see any old time, but this play "Montana" can be seen only upon special occasions and it would be well for visitors when coming to Alliance to proceed at once to Holsten's drug store and get their seats reserved before the performance begins, when all the seats will have been sold.

Owing to increase in price on all kinds of provisions, I find it necessary to make a slight raise in some of my prices, believing that they will prove more satisfactory to my patrons than it would to lower the standard of meals. Hoping that this will prove satisfactory to all and assuring you that I will continue to serve the best of meals at the lowest possible prices.

Hereafter no tickets and no book accounts.
